#### **Digitizing:**

We offer digitizing service for those who would like a custom logo done. In order to digitize your logo we need a high resolution image to work from. Charge is determined by size and complexity of the design and is a one time set-up fee. (Minimum charge is \$50). We keep your logo on file to embroider future orders. Designs must be no more than 12 different colors total. Digitizing orders must be submitted at least 2 weeks prior to the event you need it for.

#### **Ordering Apparel**

We are able to order whatever garments or bags you may need to embroider from t-shirts and jackets to backpacks and towels. Average shipping time is 3 to 5 business days and can be ordered in any amount from 1 to 100. Price quotes for the items will be based on quantity. Any horse products stocked in our store that are able to be embroidered can be ordered in different colors or sizes per manufacturer's availability and are priced at retail pricing. Bulk orders for organizations, businesses, and shows can qualify for a price break based on quantity.

#### **Outside Products**

We prefer to embroider on materials we stock or can order in case of problems with the embroidery equipment. Items we stock regularly we will replace at our expense in the case of malfunctions. We will embroider outside products but will not guarantee against defect as we cannot replace the item. It is at our discretion whether or not we will accept a particular item for embroidery service.
